

# HOLIDAY HOME SECURITY TIPS COLORADO SPRINGS LOCKSMITH

# Overview

You don't want to be distracted by thoughts of your home's vulnerabilities while you're having the time of your life with your friends or family. The key to keeping your home secure during the holidays is to plan ahead of time.

Contacting a **locksmith Fort Collins** for a home security assessment will assist you in identifying weak points in your home's security. It will also give you enough time to fortify those areas, thereby protecting your home from intruders while you are away.

## Upgrade Your Locks

The first step in keeping your home secure is to lock your doors. A high-security lock installation service from an experienced locksmith may be exactly what you need to fortify your doors and secure your home. To protect your home from intruders, you could choose from a wide range of locks ranging from deadbolts to smart locks.

## **Install Surveillance Cameras**

Homeowners can keep an eye on their property even when they are away, thanks to technological advancement. Surveillance cameras are reasonably priced and can be linked to your PC and mobile devices. As a result, you'll get real-time updates on what's going on around your house. With a good surveillance camera, you can see when packages or mail are delivered and who is standing at your front door.

Some surveillance security systems use advanced technology to immediately notify the police when an intruder is detected. Criminals prefer easy targets because they reduce their chances of being apprehended. Criminals generally avoid homes with surveillance security systems.

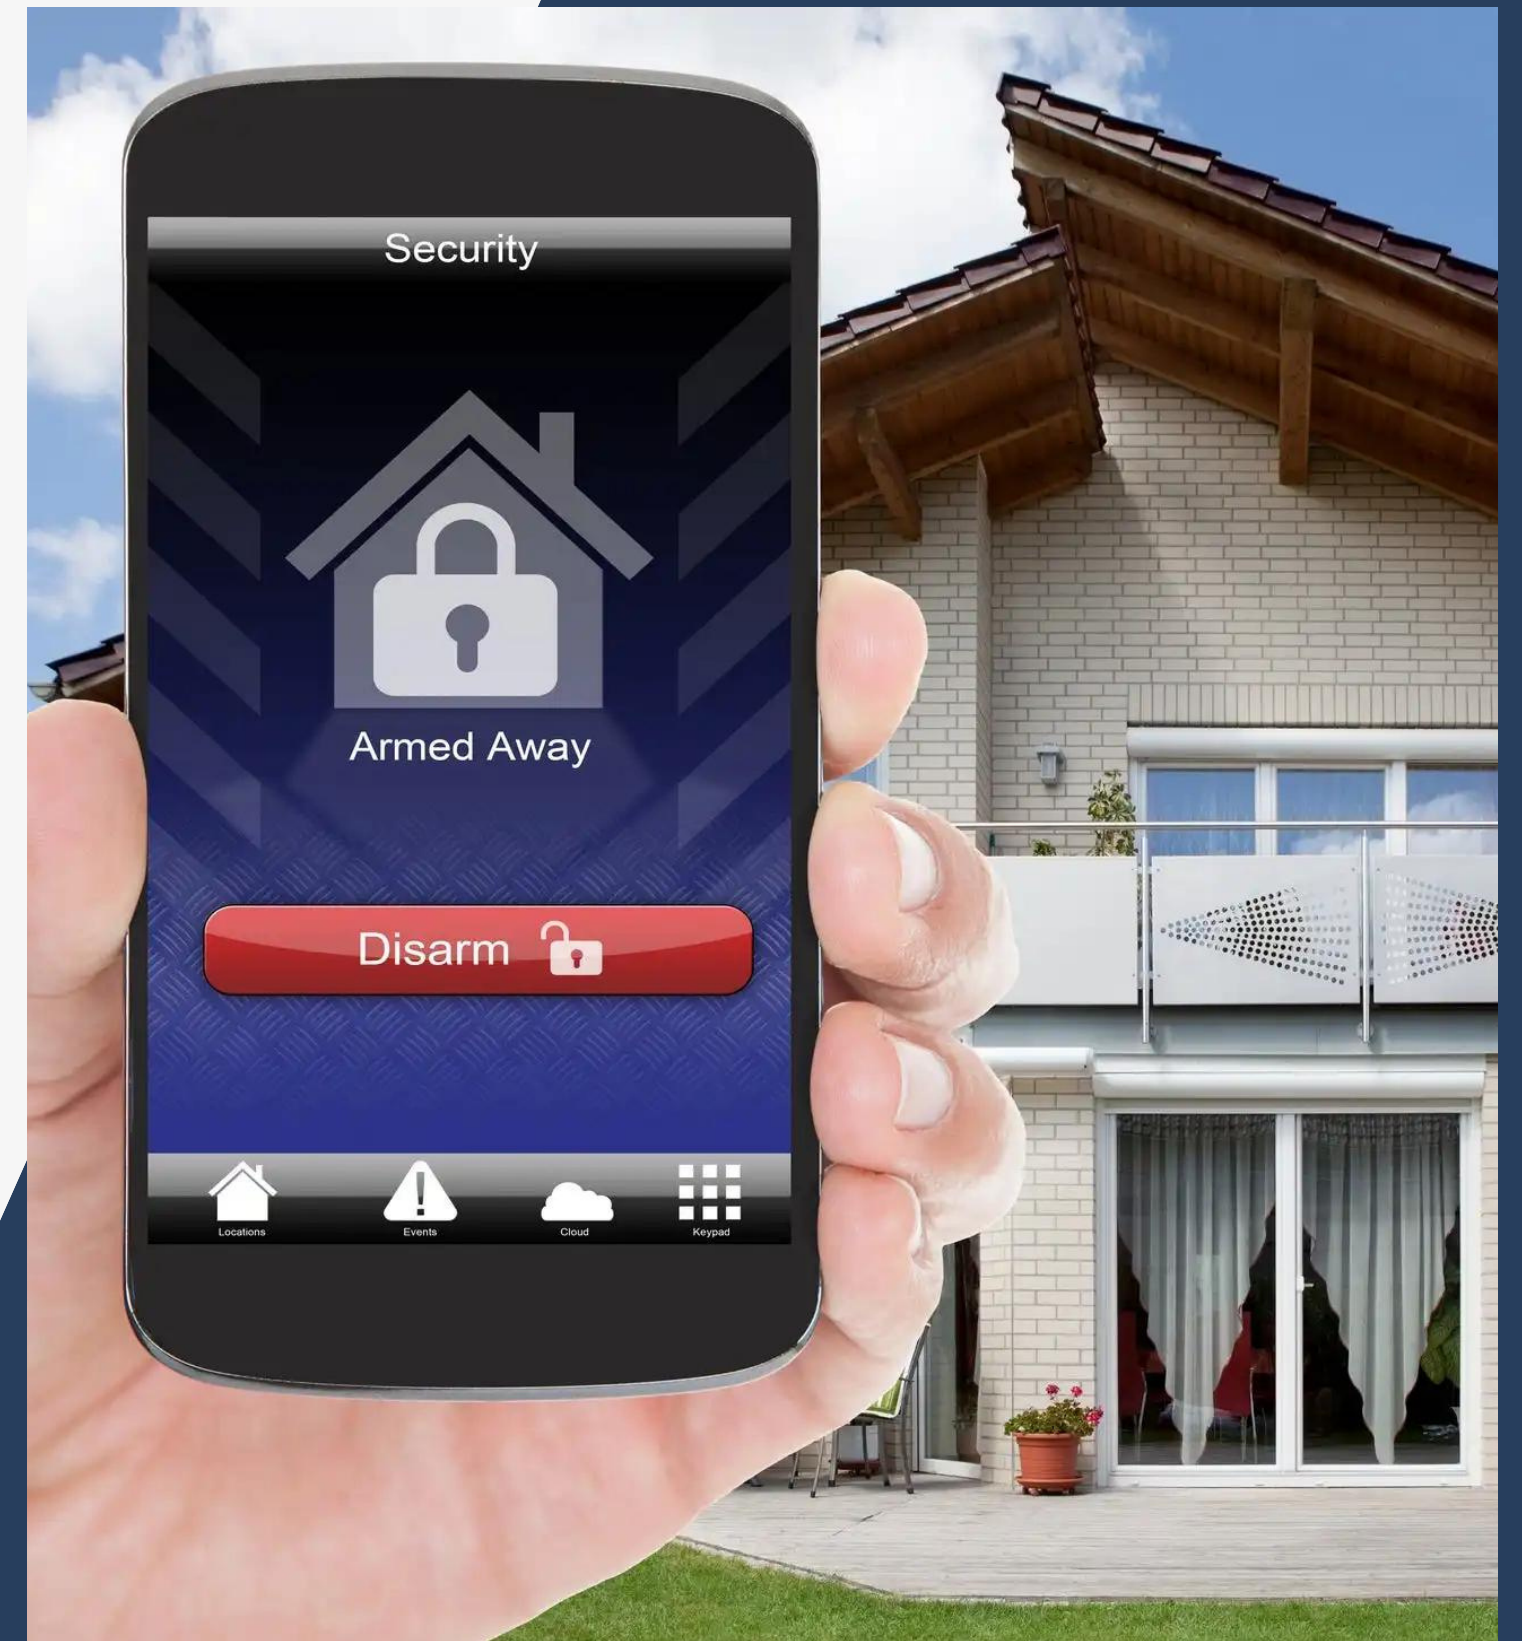

## Hide Your Valuables

You may be tempted to leave your gifts out in the open during the holidays. Criminals, on the other hand, seek out these opportunities. When they notice you are gone, they devise a way to steal the gifts you have left unattended. A thief would not pass up the opportunity to steal valuables sitting across an open window. In addition, leaving a stack of delivery boxes on your front porch invites criminals. Take your packages inside or ask a neighbour to help you retrieve them while you are away.

While you're out having fun this holiday season, make sure you have peace of mind about the safety and security of your home. Contact Colorado Springs Locksmith for security assessments and recommendations that will assist you in protecting your home, family, and belongings during the holidays.
